[Financial And Managerial Accounting 14th](#)

Role of managerial accounting. To interpret financial results in the manner described above, managers use Financial analysis techniques. Managers also need to look at how resources are allocated within an organization. They need to know what each activity costs and why. These questions require managerial accounting techniques such as activity based costing. Managers also need to anticipate ...

Double-entry bookkeeping first emerged in Northern Italy in the 14th century, where trading ventures began to require transactions that involved more than one investor. Management (or internal) accounting and financial (or external) accounting are generally the two key branches of accounting. Management accounting provides relevant and useful information to people inside the business, such as ...
